December Meeting Members Christmas Party!

The Members Christmas Party will be on Saturday, December 8. Members should have received a separate email, with more details to follow. There will be a short Demo, and then the PARTY BEGINS!

New Member Kevin Dean's sister died recently, and he will be making an urn for her. He is trying to find a perfect piece of wood that he can turn an urn for her to rest in. He asked if any club members may have a lead to possibly bring this about. He will not be able to be at the party, but if you can help you can contact him by email at deankevin770@gmail.com

The Spheres of Hamp Stevens

Hamp amazed us with his spheres made with wood, paper, and metal, not to mention the CNC machines he made himself !!!
