

# Golden Isles Woodworkers and Woodturners

October 9th 2021

[www.GIWW.org](http://www.GIWW.org)

**Doug Ballard's joint**

**1377 Cate Rd**

**October 9th**

**10 am**

At present there is no demo sch, for the meeting. Although there is a rumor that Barb or Dave Loehle may step up.

Sept meet included Charles Walkers demo on how to flatten a board using his jig and a router.. It was a darn good demo. He makes lots of dust.

Raffle pulled in \$ 40.00. Here is a web site to check out. **[FingerLakeswoodturners.com](http://FingerLakeswoodturners.com)** Just read that Covid is dropping hurray.

Ten members at meeting. Eddie W, Gerald D, Jim R, Karen G, Charles W, Steve Posey, Doug B, Pete B, Dave L, and Leon F.

Discussion about possible purchase of a cooler to chill water for members and guests.

Discussion about a chalk board,, Steve Posey came up with a dry erase board. Thanks Steve

Dave Loehle offered a demo at Oct meeting but our machine does not have a indexing system.

Jim Redden cleaned out his over filled shop of wood and now we have our shops filled with it. This was a great idea and we all should look at wood we do not use or need and bring to meeting.

Also discussed Eddie and Jim R. source for wood laser engraving. Her name is Selia Bishop and her number is 912 358 0951 She has two cnc lasers one 3 ft square and one that is 48" x 96" She does a great job. Give her a call if you are in need of her services.

Eddie is hoping to make a trip to Jax monday to meet with southern plywood fellow. Will talk to owner about offering discount on wood products to members.

PLAN TO start a space at bottom for companies that we buy from. IF you have any favorites please send them with a web page, phone, address, etc.. we seem to forget easily

MEMBERS CREATIONS

Craig Farnsworth

Curly Maple bowl.

Two small vessels mystery wood and wet. That dark line on left bowl may have been a lightning strike

72 pcs  
walnut, maple

from saw  
table to this  
on right

END RESULT. Maple, Wenge, yellow heart, bloodwood repeat yellow h., and maple.

the bottom has 36 walnut splines.and 36 maple. Dish is 7x6 high

A small vase with rose wood base?? and mystery wood top. The top pc was cut down from a hedge row that looked like willow just last month. Very soft and wet. Turned down and hollowed quickly then let it dry. one small crack on back side. Finished with one coat shellac and 6 of lacquer.

---

David Loehle

This is the start of custom serving trays that Dave started. First strip nailed on then the last two strips glued on with lots of clamps

26" serving tray custom order for local restaurant. Believe Dave said maple. Now we all now where to get a extra clamp or two.

Good job Dave

---

Steve Pappas

Wooden coasters and tray purple heart , jatoba, ash, and paduk laminates

---

Jim Reden

Jim says its heart pine with saw marks with a ipe base and camrue... I asked Jim if that was suppose to be Kangaroo not camrue???

Eddie Wildsmith

---

Doug Ballard

Doug has been working on this work shop table with home grown quick release vise....

HE says its made of white oak 1x4' on edge glued and bolted together. Then he got rent his shop and sell all our equipment.. You know \$ 20 a month
