GOLDEN ISLES WOODWORKERS AND WOODTURNERS

BRUNSWICK, GA

OCTOBER 2025

MEETING:

OCTOBER 11, 2025

FIRST PRESBYTERIAN CHURCH

1105 UNION STREET

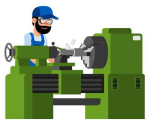
BRUNSWICK, GA

PUBLIC WELCOME

DEMO:

MARK VALENTINE

CABRIOLE LEGS



PRESIDENT'S MESSAGE

First, our condolences to Doug Ballard and his family on the passing of Sara. She will be missed by all.

GIWW had a booth at the Autumn Makers Market in Brunswick and we learned a lot. Thanks to Ken for his efforts in spearheading GIWW participation and to the members who manned our tent and helped answer questions. The club netted $67. We have decided to participate in the SSI Lutheran Church annual Christmas sale in December. More details will be forthcoming. It's not too early to start making items that would make nice Christmas gifts for sale.

Mark Valentine will be doing our October demo and he will demonstrate how he makes cabriole legs. Mark has built a beautiful table with 4 perfectly matching cabriole legs. In November Craig Farnsworth will demonstrate how to turn a rolling pin with a celtic knot.

I will be sending out an email requesting your input for desired demos for 2026. We want the demos to valuable to you so please send me your thoughts when you receive the email.

As the Holiday season is fast approaching we want to plan our annual Christmas party. As in the past, the club will purchase the meat courses and members will bring a dish to share. We are in need of someone to volunteer having the party at their home or get suggestions where to have it. Please let Karen know.

AAW magazine is a wonderful magazine for learning techniques, how to sharpen gouges, and for creativity, etc. I highly recommend it. The other exceptional magazine is FineWoodworking magazine. It has many articles (and videos available on how to sharpen tools, how to make difficult joinery, etc, etc and I highly recommend it to further your skills.

Remember November 1, is the Rudy Lopez demo day. Rudy is a very talented woodturner. We will all learn from Rudy. One of his specialties is sharpening and using negative rake scrapers,

Happy turning or making flatwork projects

Steve

The following link is available to access our demos.
