FIRST PRESBYTERIAN CHURCH

1105 UNION STREET

BRUNSWICK, GA

PUBLIC WELCOMED

DEMO:

Craig Farnsworth will

Be doing a demo on yo-yo's

GIWW

In May, we were very fortunate to have Mae Bowley, Executive Director, Repurpose Savannah give us a very educational presentation about her company, their background and purpose. Mae is very passionate about her non-profit company and "wood" in general. She is especially knowledgeable about old wood, its various markings and history. The Repurpose Savannah staff go to various places to "disassemble" old houses so that the wood in them can be salvaged. I personally was very impressed that they use no power tools in this process. They clean the salvaged wood and then sell it at their facility at 2302 E Gwinnett St, Savannah. I have added their contact information on our Sources page at the end of the Newsletter. In addition to the recycled wood, which is mostly pine, they have a facility that has other wood that has been donated to them and finished products for sale. This is Mae Bowley

This month starts Summer and a busy time of the year for everyone. We still need volunteers for demos, and/or suggestions for demos. Please think about doing one for us.

The club has 27 members to date. We are always looking for new members and encourage our current members to bring a friend whenever possible. One meeting might spark an interest they didn't know they had.

Remember, please send pictures of your projects before the 25th of each month to be certain to have them included in the Newsletter.
