**HIS DEMO WILL BE ON:**

**FLUTING**

## PRESIDENT'S MESSAGE

19 members and spouses kicked off summer by getting together at Dave and Lucy's home for a very enjoyable picnic and camaraderie. Once again, let's all give a BIG THANKS to David and Lucy for hosting another successful outing. Dave, Ken, Mark V., and I showed items at Show and Tell and impressed our spouses!!! Our Christmas Party and Spring picnic have been well-received and good times were had by all. AND we have many good cooks and bakers in our group (you do know I mean spouses!!).

We have exciting and informative demos in the months of June and July. In June Andy Oldenberg from NE Florida Woodturners Guild will be doing a demo on fluting turnings.

Andy's demo will be hands on and will be a fun demo where we learn new skills.

In July Paul has agreed to do a demo on making dovetails. Many of you asked for this demo and Paul has agreed to share his knowledge and skills in making dovetails.

One of our primary goals this year was to have demos that are of interest to the majority of members and are professional and I think that we are on our way to achieving that objective and will continue to do so. Suggestions for future demos are welcomed. I have been getting suggestions for discussions on how to efficiently lay out a shop and for shop visits in the future.

Another objective was to raise money for the club which Ken will be discussing at the May meeting. We need to find ways to bring in funds into our treasury so we can bring in more professionals to do demos once or twice a year AND to pay rent. Again, suggestions are encouraged.

If you want to place a member order for Klingspor sanding products please send me an email with the part no, description, quantity, and price and I will include it in an order that I hope to place after the June meeting. So far we have 2 order requests.

I have a previous longstanding commitment for June and will not be at the meeting, but Ken has an excellent agenda. See y'all in July.

***Steve***

As discussed in our last meeting, we are developing a YouTube page. So far, we only have one video on it, but will add to it as time goes on. If you missed Paul Speich's demo in March, you will enjoy the one video we have posted. The following is our link to that page.
