SEPTEMBER 13, 2025

FIRST PRESBYTERIAN CHURCH

1105 UNION STREET

BRUNSWICK, GA

PUBLIC WELCOME

DEMO:

KEN HONADEL,

CHRISTMAS TEA

LANTERNS

PRESIDENT'S MESSAGE

Happy Labor Day! I hope that everyone is having a relaxing and enjoyable Holiday.

We have an interesting demo this month. Ken will demonstrate how he makes birdcage ornaments. After his demo all of us will be making ornaments for family and friends—and for shows!!!

There has been miscommunication from Klingspor on how to order items and get the GIWW discount and I will clarify how you can get easily order and get discounts through them. They have apologized for their miscommunication.

We received some great PR in the community as a result of the article in The Brunswick News on our club. Thanks to Paul and Karen for their participation. Didn't Paul look good in the photos?!?! He's a star!

Hopefully we will get some new members as the result of the visibility. As a group we need to brainstorm and decide on a worthwhile community project.

Remember, we now have a tool sale table. Bring in your excess tools for sale. Register them with Herb and make some $$$ to buy more tools!!!

The Autumn Makers Market is fast approaching. Don't forget to send Ken your inventory of items that you will be putting in for sale or for show and bring your items to the September meeting so Ken can determine what he needs for set up. This is our first event that we are participating in quite a while and we are hoping it is a huge success so we can do it again in November. It is a way for each of you to sell your items (or donate them to the club for sale) and make $$$. Let's work together and have a lot of participation. Thanks to Ken for his tireless efforts to make this a success.

There have been several requests to have workshop visits and discussions on how each of us has done something to make our shops more efficient. We will do this in October or November. We have 4 shops in St Simons that are within 1 1/2 miles of each other. We can all learn from what others have done. I have always learned something when I visit someone's shop. I recently was in Tennessee working with Charles Brock in his garage shop and came home with several new tips and ideas.

Steve

As discussed recently, we are developing a YouTube page. Please use the following link to access our demos.

https://www.youtube.com/@GIWWClub-j3n

We were very fortunate to have a great article about the GIWW in the Brunswick News this past month. If you do not have access to their web site, the following will get you there. Please take the time to read it.
